PROJECT: For the fifth time the small community of Burk invites an international workcamp this year! The last camps were a big success, so the community is happy to repeat the international experience. On May 1st the village will celebrate the installation of the maypole (Maibaum), which is a popular tradition, particularly in Southern Germany. You are – of course – invited to join the celebration, experience Bavarian culture and meet locals right in the first couple of days of the workcamp.

WORK: The workcamp group will have different tasks this year: Volunteers will support the community of Burk with various kinds of renovation and maintenance work. You will help renovate the youth centre, as well as a hiking hut and a BBQ hut in the surrounding area. There will also be some restoration tasks at the local cemetery and green areas around the community. Be spontaneous to help out wherever a helping hand is needed!

ACCOMMODATION: The workcamp group will stay at the local primary school's building. Please bring your own sleeping bag! For cooking you can use the kitchen of the fire brigade's house next door. All necessary sanitary facilities are available.

LOCATION: Burk is a small village in Bavaria with 1100 inhabitants. It is surrounded by beautiful nature with forests and hills perfect for hiking. There are a couple of nice lakes in the area, too. The cities of Nuremberg or Wuerzburg can be visited on weekend trips.

NEXT AIRPORT: Nuremberg

NEXT TRAIN STATION: Ansbach

MEETING POINT: Train station Ansbach
